Front End React Certification

# Stephen Hirzfeld

Full Stack Developer React + Django | Coordinator at Coderhouse  
Argentina

## Extract

Currently I specialize as a Full Stack Developer, my stack is made up of:

Javascript - React - Node - MongoDB

Python - Django - PostgreSQL

I have basic skills as a designer and programmer, although I am also interested in areas such as: Marketing, Finance, Web Positioning (SEO) and Development of Applications and Videogames with 3D or VR environments.

I am a communicative professional who enjoys working in a team. My knowledge, curiosity and variety of interests allow me to provide comprehensive and creative solutions when developing applications and websites.

---

## Experience

coderhouse

10 months
